Summary

A graduate of the Department of Agricultural Engineering, Mansoura University, with a good grade (74.3%), and a graduation project in the design of irrigation networks, with a grade of excellent (98%).

Skill Highlights

- time management
- Learning quickly
- Team work
- Self-Motivated

Experience

2021

-Maintenance engineer for irrigation and agriculture sites

-Technical office engineer

Dutes:(Shop Drawing (Irrigation, Softscape)- Design Irrigation- IR's (Irrigation ,Softscape)- REV's(Irrigation ,Softscape)- Create QS Reports)

At Land Masters company

2020-2021

Design and planning of green areas irrigation networks

Case study at Mansoura University

2021

Completed an online irrigation network design course

Lotus (Irrigation and Landscape Company)

2019

Training the Arab Organization for Industrialization for the 100,000 acres greenhouse project

Education

Bachelor's degree Agricultural Engineering and Biosystems

Mansoura University

personal skills

*I can design irrigation networks using AutoCAD and Rain CAD

*I can design Landscape using AutoCAD and Realtime

* Fluent in Microsoft Office and computer skills

* Work under pressure and adapt to working conditions
