

Kareem El-sawah

Senior Civil Engineer

A senior civil engineer with 10 years of experience is a highly skilled and experienced professional who has worked on a variety of civil engineering projects. I have likely worked on projects ranging from earthwork, asphalt construction, irrigation works, agriculture, electrical works, and hardscape.

Education

Bachelor of Science: in Engineering - New Cairo Academy (2013)

- **Grade:** Pass
- **Grade of Project:** Excellent
- **Graduation Project** " quality control of construction work"

Experience

Project manager at Capital Properties Group (Al-Burouj compound)-Delta for roads and landscape from (3/2022- present)

- **The consultant:** KAF
- **Description:** making landscape works including electrical work, irrigation, architecture, and hardscape

Project manager at Sodic West Project (Beverly Hills) -Delta for roads and landscape- (12/2021: 3/2022)

- **The Consultant:** Engineering Consultants Group (ECG)
- **Description:** Landscape works include irrigation, electric, agriculture, concrete, and marble works, as well as asphalt roads and interlocks.

Project Manager at October Plaza Project, Sheikh Zaid - Delta for roads and landscape- (7/2019- 12/2021)

- **The Consultant:** (Ehaf Consulting Engineers)
- **Description:** Construction of main roads including curb stone and interlock works.

Project Manager In Sodic East Project – El Shorouk City -Delta for roads and landscape – (7/2018: 7/2019)

- **The Consultant:** Arab Consulting Engineers (Muharram Pachom)
- **Description:** Preparing the site for the construction of main roads including cutting all types of soils such as rocks, sand and backfilling on layers and making base course layer.

Senior Site Engineer in Oyon Moussa - Sharm Road Orascom Construction – (1/2018: 6/2018)

- **The Consultant:** Engineering Authority of the Armed Forces
- **Description:** Making new Highway Road from oyon Moussa to sharm sheikh city as long as 300 kilometers including Earthworks, Base course 2 layers and 2 layers of asphalt

Date of birth: 08 – 12 – 1988

Nationality: Egyptian

Marital: Married

Military: Exempted

Address: Cairo-Future city - B426- F33

Phone: +201111143513

Site Engineer In Om Koshai Airport , Sinai - Orascom Construction - (6/2017 : 1/2018)

- The Consultant: Engineering Authority of the Armed Forces
- Description: Fill 18 Meters high for Making 1 runway and 1 tarmk for airbus and making 6 roads around airport

Site Engineer In Ismailia –Awja Road , Sinai - Orascom Construction - (3/2017 - 6/2017)

- The Consultant: Engineering Authority of the Armed Forces
- Description: making 2 layers of asphalt as long as 40 km pavement and marking works

Site Engineer in Al Maliz Airport, Sinai. - Orascom Construction - (10/2014 - 3/2017)

- The Consultant: Engineering Authority of the Armed Forces
- Description: Upgrade and widening for main runway and 2 taxiway including Earthworks, Base course layers, 3 layers of Asphalt pavement and marking works & milling old asphalt for main runway and taxiway .
 - completion of 1 runway 3500m x 60m with the shoulder
 - completion of 2 taxiway 3300m x 50mwith the shoulder
 - completion of 2 tarmk 200m x 400m
 - completion of 20km ring road around airport
 - completion of interior roads for airport
 - completion of parking area 200m x 300m

Site Engineer In Eltal Elkaber Road, Ismailia -Delta for roads and landscape - (6/2014- 9/2014)

- The Consultant: Arab Consulting Engineers (Muharram Pachom)
- Description: Excavated 6 km road by dozer machine Askew both sides of the 2:1 (unsuitable soil) and replaced it by suitable soil, Backfilling the road according to Profile and cross-section approved

Site Engineer In palm Park Project - Delta for roads and landscape- (2013 -2014)

- The Consultant: Ahmed Abdul Wares (AAW)
- Description: Implementation of more than 15 intersections between roads in the Excavate and Backfilling Earthworks, 2 layers of base course for interlock layer.

Site Engineer in Royal City Project - Delta Company (2012 -2013)

- The Consultant: Engineering Consultants Group (ECG)
- Implementation of Earthworks Including Cutting and Filling works, Making 2 layers of base course and layers of asphalt and pavement, And construction services road.

Courses and Certificates

- Construction safety and health –OSHA Academy
- Leadership and management
- Project management
- Construction management
- AutoCAD
- ICDL Certificate (International Computer Driving Licence).
- Microsoft Windows, Microsoft office, AutoCAD 2D & Internet.

Skills

- Strong technical expertise in civil engineering, including knowledge of engineering principles, materials, and methods
- Ability to manage multiple projects simultaneously, ensuring that they are completed on time and within budget
- Excellent communication skills, including the ability to write clear and concise reports, make presentations, and lead meetings.
- Demonstrated leadership skills, including the ability to lead a team of engineers and technicians, provide guidance, mentoring, and support, and delegate tasks effectively.
- Strong critical thinking skills, including the ability to identify and solve complex engineering problems using critical thinking and analysis.
- Thorough understanding of the regulatory environment in which civil engineering projects operate, including environmental, safety, and building codes.
- Innovative and creative thinking, including the ability to identify opportunities for improvement and implement modern technologies and methods to improve project outcomes.
